

ENVIRONMENTAL POLICY

OF

Mountain Security Services Ltd

INTRODUCTION

1

MSS-Mountain Security Services Ltd is concerned in providing contract security and facility management services. We recognise that our operations have an effect on the environment and we wish to minimise the potentially harmful effects of such activity wherever and whenever possible. We also recognise that good environmental management must be an integral and fundamental part of our corporate business strategy.

POLICY STATEMENT

2

Our policy is to meet or exceed all environmental regulations, laws and codes of practice. We are committed to the prevention of pollution and to minimising the impact of our operations on the environment. This environmental policy is the company's statement of environmental goals which outline our commitment to continual improvement of environmental management system.

COMMUNICATION TO STAFF

3

To be successful, the environmental policy statement needs to be company-wide and therefore commitment is required from the whole workforce. The company director Mr. Yasir Mumtaz has specific responsibility for policy development, coordination and evaluation of performance. Operations managers have an important role to play in helping employees to understand and implement the relevant aspects of this policy in their day-to-day work through the regular communication of objectives, action plans and achievements. This will be achieved through by communicating to staff through newsletters, email bulletins, team meetings, training sessions etc.

GOALS

4

4.1 Energy Use

We will use environmentally safe and sustainable energy sources to meet our needs.

4.2 Resources

We will improve our environmental performance by conserving energy, water, wood, paper and other resources, particularly those which are scarce or non renewable, through efficient use and careful planning, while still providing a safe and comfortable working environment.

4.3 Products

We will consider the environmental impacts of our products at all stages of their life cycle - from design, to manufacturing, customer use, and finally disposal.

4.4 Recycling

We will promote recycling and the use of recycled and refurbished products and materials where such alternatives are economical and suitable, while reducing consumption of materials wherever possible.

4.5 Waste Disposal

We will minimise waste, especially hazardous waste, in all our operations and product development and will dispose of all waste through safe and responsible methods.

4.6 Wildlife

We will ensure that any products used or derived from wildlife, such as timber and plants, are from sustainable sources, and comply with EU and international trading rules & regulations.

4.7 Suppliers

We will work with our suppliers to ensure they recognise and reduce the environmental impact of their products and transportation through a quality purchasing policy.

4.8 Transportation

Through coordinating route planning and delivery schedules we will seek to realise the dual benefits of reduced fuel consumption and lower exhaust emissions.

4.9 Pollution

We will monitor relevant discharges and emissions to air, land and water to assess what action is necessary to reduce pollution or the risk of pollution. We will phase out, where practical, ozone depleting substances and minimise the release of greenhouse gases, volatile organic compounds, vehicle emissions and other substances damaging to health and the environment.

4.10 Buildings

We will ensure, where practicable, that buildings occupied by us are designed, constructed and operated to optimise their environmental performance.

4.11 Training

We will include environmental issues in all company training programmes and encourage the implementation of sound environmental practices company wide.

5 POLICY REVIEW

This environmental policy will be reviewed regularly and, if necessary, revised to reflect procedural changes and the latest developments.
